Beautify Your Garden With... McCullough's Roses

Our Roses are grown in Northern Ohio. They are strong Two-Year-Old field grown, budded stock. Selected from No. 1 garden plants. Field grown budded Roses are stronger and better prepared for the garden than other Rose plants. We do not offer any southern grown Roses.

CULTURE. Give Roses the best location possible. They want well drained soil which will not become too dry and where there is facility for watering. They need at least a half day's full sun light. It is seldom that generous success can be achieved with Roses unless they have good drainage, some sun light and sheltered from strong winds. Roses are best grown in well prepared beds fertilized with either stable manure, shredded Cow manure, bone meal and special rose food. Rose food is one especially prepared for Roses. These fertilizers should be applied at the time when preparing the bed at planting time and at about every two months during the growing season. The dimensions of the bed should suit the varying size and vigor of the plants which it is intended to hold. A width of 4 ft. allows the gardener to reach the center of the bed from either side and will accommodate either two or three rows of Roses.

MULCHING. During the summer months is beneficial. It eliminates cultivation and retains moisture in the soil. We recommend Terr-a-lite, Peat Moss, or Ground Corn Cob for Mulching Roses.

NEW EVER BLOOMING HYBRID TEA ROSES

All varieties of Roses listed on this offer will thrive in the Ohio Valley and have been recommended by the members of the Cincinnati Rose Society.

APPLAUSE. A dazzling light-red becoming lighter — almost deep pink. Quite mildew-resistant. Plant Pat. No. 829.....	Each \$2.00

THREE 1950 ALL-AMERICA WINNERS

MISSION BELLS. Deep salmon-pink rose. Long pointed buds borne on stiff stems. Opening to flowers 5 inches in diameter. Has a pleasing tea-scented fragrance. Vigorous plants with copper-green foliage which is disease resistant. Pat. applied for. 1950 All-America Winner.

\$2.50 each, 3 for \$6.30

CAPISTRANO. Large buds producing extra large flowers of heavy texture. A rich shade of deep, glowing rose-pink, open flowers often reach 6 inches across. Very fragrant. Foliage large and leathery. Plants upright and sturdy, strong, tall grower. Pat. applied for. 1950 All-America Winner.

\$2.50 each, 3 for \$6.30

SUTTER'S GOLD. Large quantities of long-pointed buds, richly shaded with orange and red, are produced singly at the end of long straight stems. Ideal for cutting. The buds open to a rich deep orange and various shades of yellow. This variety excels all other yellow Roses in the richness of its perfume. This outstanding Rose was named in commemoration of the 100th anniversary of the discovery of gold at Sutter's Mill in California. Pat. applied for. 1950 All-America Winner.

\$2.50 each, 3 for \$6.30

EVER BLOOMING HYBRID TEA ROSES

PRICES OF THE FOLLOWING 12 ROSES

\$1.00 EACH

Three of One Kind, \$2.50

12 Roses, Our Selection, \$10.00

CHRISTOPHER STONE. Bud long pointed, flower large, vivid scarlet. Fragrant.

CONDESSA de SASTAGO. Coppery pink inside and golden yellow outside. Fragrant.

EDITOR McFARLAND. Deep pink. Fragrant.

GOLDEN DAWN. Double, fragrant, sunflower yellow to lemon yellow.

MME. JOSEPH PERRAUD. Very large, double, yellow. Fragrant.

RED RADIANCE. Very large, clear even shade of red. Fragrant.

SISTER THERESE. Very large, semi-double, golden yellow. Slightly fragrant.

TALISMAN. Golden yellow and copper.

FLORIBUNDA ROSES

This group of Roses grow in clusters and are suggested for mass planting. They are noted for their ease of culture. They are hardy, bushy and in bloom continuously. Flowers in clusters fairly large from single to double. They are best planted about 14 inches apart in groups.

BETTY PRIOR. (Plant Pat. No. 340.) Bright red buds open to single flowers of shell-pink, giving glorious two-tone effect. Prolific bloomer.

Each.....\$1.25 Per Dozen.....\$12.50

DONALD PRIOR. (Plant Pat. No. 377.) Immense clusters of semi-double, brilliant red flowers. Sturdy plants, seldom without a bloom. Petals are large and wavy. Particularly useful for mass effects in beds and borders. The plants grow strong and are disease resistant.

\$1.25 each, \$3.15 for 3, \$12.50 for 12.

FLORADORA. (AARS 1945.) Dazzling bright cinnabar color with shades of scarlet. A spectacular show especially in mass planting. Buds are exquisitely formed, produced in profusion on a neat symmetrical bush. Foliage glossy olive-green.

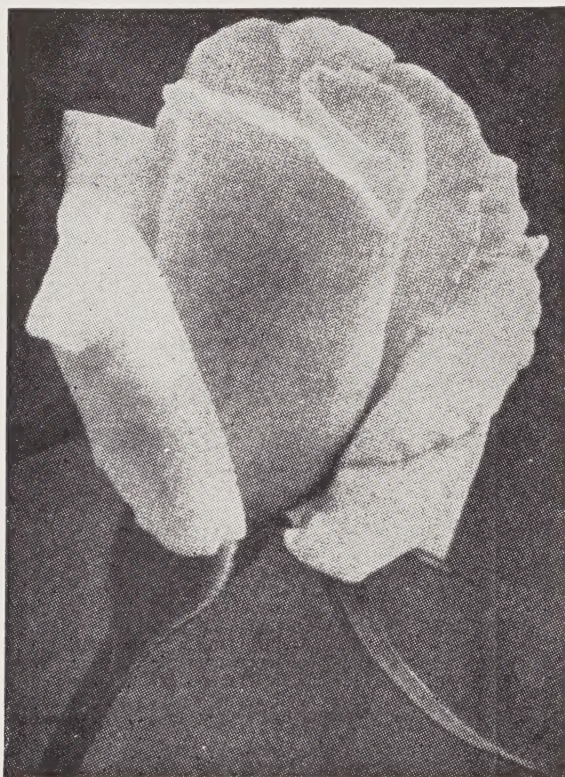

Each.....\$1.25 Per Dozen.....\$12.50

KLYN'S ORANGE. Orange-salmon, unique.

Each.....\$1.25 Per Dozen.....\$12.50

PINOCCHIO. (Plant Pat. No. 484.) Extremely hardy, very easy to grow, always in bloom, with hundreds of flowers on every bush. Pointed buds are rich salmon, blushed with gold at base, gradually changing to soft clear pink as the flowers open. Fruity fragrance.

Each.....\$1.35 Per Dozen.....\$13.50

HARDY CLIMBING ROSES

Our Hardy Climbing Roses are all large — flowering varieties. Excellent display and will give an unbelievable number of cut flowers.

Climbing Roses require no pruning in the Spring beyond cutting out very old dead wood and the shortening of the long canes to make the growth conform with the space to be covered. A severe pruning in July directly after they have finished blooming is beneficial.

DOUBLOOMS. (Plant Pat. No. 152.) A lovely yellow, noted also for hardy and vigorous growth, shapely buds and large firm blooms of yellow apricot. Spicy fragrant, blooms early and for a long season.

Each.....\$1.50 3 for.....\$3.75

DR. W. VAN FLEET. Flesh pink, very vigorous with large double fragrant flowers, hardy and healthy and dependable.

Each.....\$1.00 3 for.....\$2.50

APRICOT GLOW. A beautiful coppery pink.

Each.....\$1.50 3 for.....\$3.75

PAULS SCARLET-CLIMBER. Vivid scarlet and very attractive with a great mass of bloom. The brilliant color does not burn or fade the bloom.

Each.....\$1.00 3 for.....\$2.50

SILVER MOON. Creamy white, pointed buds and large flowers (4 inches across) blooming in June. Flowers slightly fragrant borne in clusters on long, strong stems. Fine for cutting.

Each.....\$1.00 3 for.....\$2.50

HARDY REPEAT BLOOMING CLIMBING ROSES

BLAZE. (Plant Pat. No. 10.) Scarlet crimson makes a gorgeous show for weeks in June under favorable conditions. It repeats in the Fall. Quite hardy and brilliant.

Each.....\$1.50 3 for.....\$3.75

NEW DAWN. (Everblooming Dr. W. Van Fleet.) Vigorous blush pink, the best hardy ever blooming hardy Rose ever produced.

Each.....\$1.50 3 for.....\$3.75

MULCH YOUR ROSE BED

MULCHING IS BENEFICIAL

- ELIMINATES CONTINUAL CULTIVATION DURING THE SUMMER MONTHS
- KEEPS THE GROUND MOIST AND COOL
- TWO INCHES OF MULCH IS EFFECTIVE
- WORK INTO THE SOIL THE FOLLOWING SPRING

TERRA-LITE BRAND VERMICULITE

Use 2 to 3 inches. Insulates against heat and cold.

4 Qt. Bag, 39c; ½ Bu., 85c; 2 Bu., \$1.85

HORTICULTURAL PEAT MOSS

The best known and most widely used product for conditioning soil and for mulching. Except for old-fashioned barnyard manure, no other product so nearly fills the need for organic matter in soil. The addition of substantial quantities to the garden will add to the soil's ability to hold moisture; will aerate the ground and will improve the texture of clay soils. A full bale will cover 250 square feet approximately 1 inch deep.

Bale \$5.75
